Relative clause in Zilo

G. Moroz

August 2018, last version

1. Introduction

Zilo speakers uses participles for the formation of relative clauses. Relative clauses can either precede the head or follow the head without any known changes in meaning (see 1b-1e), so the topic of the possible word orders in relative clause and whether different orders have different meanings needs further investigation based on corpora data.

2. Positions that can be relativized

- (1) Single argument of an intransitive verb
 - a. iʃ:i-χο joʃi j-iʔ-o we-AD.LAT girl F-come-PST(AOR) 'The? girl came to us'

(11) Time

- a. zełal wojo w-u?-o today boy M-come-PST(AOR)'Today boy came'.
- b. [woʃo w-uʔ-o-b] zubu boy M-come-PST-PTCP:PST day 'Day when the boy came'.
- c. [woso w-u?-ija] zubu boy M-come-PTCP:PRAE day 'Day when the boy will come'.

(12) Spatial location

a. woso hon-tłi w-uz-un boy village.OBL-INTER.ESS M-be.born-PST(AOR)

'The boy was born in a village'.

- b. $[wo\ fow \ uz \ uni \ b]$ hon di-di-cr>o ha?-o boy M-be.born-pst-ptcp:pst village I-<\tauangle and 2>aff see-pst(aor)

- c. [woʃo w-uz-un-ija] hon di-<r>o boy M-be.born-¬PST-PTCP:PRAE village I-<¬AN2>AFF see-PST(AOR)
 'I saw the village, where the boy will be born'.

Since relativisation remove all relation markers from the head of the relative clause, the ambiguity arise: the relativised spatial goal and spatial source will be the same (but there is a lexical way to distinguish them anyway):

(13) Spatial goal and spatial source

- a. woso hon-ti w-uts':-un boy village.obl-inter.lat m-run-pst(aor) 'Boy ran to the village'.
- b. woso hon-tłi-k:u w-uts':-un boy village.obl-inter-elat m-run-pst(aor) 'Boy ran from the village'.
- c. [woʃo w-utʃ':-uni-b] hon di-<r>o haʔ-o boy M-run-PST-PTCP:PST village I-<¬AN2>AFF see-PST(AOR) 'I saw the village that boy ran to/from'.
- d. [woʃo w-utʃ':-un-ija] hon di-<r>
 boy M-run-¬PST-PTCP:PRAE village I-<¬AN2>AFF see-PST(AOR)
 'I saw the village that boy will ran to/from'.

In adpositional relative clause the adposition could be placed anywhere in a relative clause but the last position (see 14b–14e). Probably, participle should be placed in last position in a relative clause, but it should be investigated in more accurate way. The first informants' reaction is in example (14c).

(14) Adpositional argument

- a. j-oſu-di k'amm-i intʃi haq'u-tʃ'u tleru girl.OBL-ERG eat-PST(AOR) apple hous.OBL-AD2 near 'The girl ate apple near the hous'.
- b. [tleru j-oʃu-di intʃi k'amm-i-b] haq'u di-<r>o near girl.obl-erg apple eat-pst-ptcp:pst house I-<¬an2>aff see-pst(aor) 'I saw the house near which the girl ate an apple'.

It is not possible to relativise some non-obligatory adjuncts:

- (18) Commitative adjunct
 - a. dada joʃi-loj w-uʔ-o father girl-com m-come-pst(aor) 'Father came with the daughter'.
 - b. *[dada w-u?-o] joʃi di-<j>o ts'inn-e father M-come-PST(AOR) girl I-<F>AFF know-HAB

5. Resumptives

During the elicitation tasks native speakers didn't produce any resumptives by themselves. Even if informants allow to use reflexive pronouns as a resumptives, they still find this sentences little bit strange (31a). No attempts to use demonstratives as a resumptive succeeded. In example (31b) demonstrative tend to be a modifier of relative clause head *jofi*, but more work should be done on this topic. In the most natural example (31c) unfortunately it is not clear, whether *enfuro* is in relative clause or it is a head of the NP with a relative clause modifier.
